

NOFA-NY Certified Organic, LLC
Addendum for Wild Crop Production

Name(s): _____ Date: _____

1. Wild Crop Practices

a. Harvest Practices

List all crops that you are harvesting as wild:

Describe how you harvest each item: please be specific. (Attach additional sheets if necessary)

What practices do you use to insure that you will not over-harvest the crop or otherwise degrade it?

What practices do you use to insure that your harvest of the crop does not degrade the land it is on?

2. List of fields to be certified for wild crop production

List all fields to be certified below. Also attach a map of the area you will be using; this can be a sketch or aerial photo. A woodlot, log laying area, or wild crop harvest area are all considered the same as a *field* for the purposes of management. **For audit purposes each field must be designated with number or letter for identification. If you have owned your land less than three years you must attach a notarized affidavit from the previous owner, or log producer, stating the management history for the previous three years.**

Letter / Number	Size in Acres	Owned or Leased	Year First Managed Organically	Crops Grown Last Year	Type of field (E.g. pure oak woodlot, mixed hardwood & softwood woodlot, log laying area, bramble, wild blueberry, mixed wildflower, mixed forest)

Attach additional sheets if necessary
