

NOFA-NY Long Island Organic Transition Program Application

NOFA-NY's Long Island Organic Transition Program works directly with Long Island farmers who are interested in applying for organic certification to the USDA National Organic Program (NOP) regulations. Farmers who seek guidance in evaluating their production practices and assistance with their certification application are encouraged to apply. Participating farmers receive the following services:

- Farm visits by the Organic Transition Educator to discuss organic production practices, review certification application information and answer questions about materials or equipment
- Ongoing support from the Organic Transitions Educator via video conference, phone or email
- Technical assistance from NOFA-NY education staff who specialize in specific crops or livestock
- On-farm field days, webinars and workshops to facilitate farmer-to-farmer learning opportunities and address organic production challenges
- Individual mentorship from the NOFA-NY Farmer-to-Farmer Mentor Team
- Complimentary registration to the annual NOFA-NY Winter Conference with opportunities to attend workshops, network with other farmers, and meet NOFA-NY staff and board members
- Fee Reimbursement: Fees for certification application (includes one annual inspection), additional reviews/inspections as applicable, and transition monitoring, may be reimbursed. Fees related to incomplete applications, late fees and no response fees will not be reimbursed. A W9 and invoice from NOFA-NY LLC must be submitted prior to reimbursement.

For additional information on the Long Island Organic Transitions Project please contact NOFA-NY at 315-988-4000 or email info@nofany.org

First Name: _____ **Last Name:** _____

Farm Name: _____

Address: _____

City: _____ **State:** _____ **Zip:** _____

County: _____ **Phone:** _____

Email: _____ **Website:** _____

1. Number of years farming: _____

2. Total acres farmed (owned or rented): _____

3. Transition eligible acres (owned or rented): _____

4. Do you have or can you obtain a 3-year history of farming practices including material input and seed records for field management? Yes _____ No _____ Unsure _____

5. What is your greatest challenge to becoming certified organic? Please provide a brief summary:

6. Organic marketing strategy (ex. direct sales, wholesale, CSA, famers market, co-op, etc.):

7. What certification scope(s) will you be applying for (ex. crop, wild crops, livestock, processing)?

8. Are you a new applicant? Yes _____ No _____

9. Are you applying for Transition Monitoring? Yes _____ No _____

10. Based on Predicted Gross Organic sales and the attached Fee Form, what do you anticipate your Certification Fees will be? (This information is confidential and will not be shared)

IMPORTANT: Please note that products may not be sold, labeled, or represented as “100% organic,” “organic,” “grown organically,” or “made with organic” until your organic certificate is issued.

New Maple, Crop & Livestock Fee Determination for Organic Certification

NOFA-NY Certified Organic, LLC

834 Upper Front St. • Binghamton NY 13905 • 607-724-9851 • www.nofany.org

Name (First & Last) _____ Farm/Business Name _____

What scopes do you want to certify? Crops, Livestock, Handling _____

Land is considered a crop scope, all dairy producers should list both crops & livestock, all maple syrup producers should list crops & handling. Handling is processing of goods (i.e. poultry processing, cheese, etc.). You will be notified if corrections in fees need to be made.

What do you estimate your gross organic sales to be from certificate date to end of current calendar year? _____

Gross organic sales (GOS) consist of sale of products / services from certifiable fields, livestock, sugar bush, wild crops, on-farm processing and facilities. *Average* time from receipt of completed application to certificate issuance is *approximately* 3 months. Keep this in mind when estimating your gross organic sales.

Projected Gross Organic Sales		Certification Fee			
From	To	Crops	Crops & Handling*	Crops & Livestock	Crops, Livestock & Handling*

For each time a check is returned as unpaid, for any reason	
<u>Inspection Cancellation</u>	Actual cost of inspection
A producer canceling a scheduled inspection 6 days or less before scheduled date.	

Organic Certification Cost Share

The Organic Certification Cost Share Reimbursement Program is a USDA program that reimburses eligible certified organic producers for a portion of their annual costs for organic certification. New producers who have received their organic certificate by September 30, or continuing producers who are undergoing their annual update process are eligible. Producers are currently able to receive up to 75% of their certification fee back per scope (crops/livestock/handling/wild crops), with a maximum of \$750.00 per scope for a total maximum reimbursement of \$3000 .

Each year, the Cost Share Program in your state will send you the application for the certification fee reimbursement. The Cost Share Program operates on a first come, first serve basis until all funds are depleted or returned to the USDA, so please complete and return your application to the program as soon as possible. Your state program may also require a receipt for proof of your certification fee payment. NOTE to producers in NEW YORK: we have an agreement with NYS Ag & Markets to annually provide them with the proof that you are certified and the amount of certification fees paid; however, you must still submit the Cost Share application each year in order to be eligible for a reimbursement.

Feel free to contact the certification office at (607) 724-9851 with any questions about this program.
